Foreword

We believe that during the past two years, this booklet has been well received by the people of the Keewatin Region. It was therefore decided to have a 1984/85 edition. This publication provides information on G.N.W.T. programs and funding available for these programs.

The contents should be particularly useful to the Keewatin Regional Council, other regional organizations, the hamlet councils and any interested citizens.

Although there is now a new Legislative Assembly in existence, Government priorities have not changed. These are once again listed in Section 2.

If you have any questions, please contact the Department of Information or the Department concerned.

Gerald D. Tanner
Regional Director

Government Priorities

As part of what it views as the new direction for the development of the N.W.T., the Legislative Assembly has established its goals for the 1984/85 fiscal year.

Important as resource development is to the future of the North, our human resources require our concern and protection. This is reflected in the priorities of the Government of the N.W.T.

The following are the main areas of concentration for the Government of the N.W.T. programming in 1984/85.

Revival of Native Languages and Preservation of Northern Culture
The Government of the N.W.T. will provide official recognition and support for individual and community desires to revitalize native languages. The Government also hopes to promote traditional and contemporary forms of culture unique to the N.W.T.

Education
The Government hopes to pursue implementation of the recommendations of the Special Committee on Education as adopted by the Legislative Assembly.

Individual and Community Well Being
Preservation and enhancement of quality of life in Northern Communities.

Housing
The Government of the N.W.T. through the N.W.T. Housing Corporation will attempt to enable N.W.T. residents to obtain adequate and efficient housing for themselves in a manner and style in keeping with their needs and desires.

Cost of Living
Assistance to northern residents in coping with the high cost of living.

Resource Development
Balanced development of renewable and non-renewable resources, ensuring that benefits from development accrue to the N.W.T. in the form of gainful employment and revenue while preserving the natural and social environment for present and future generations.

Energy
Encouragement of energy conservation practices and balance in the development of an efficient energy system which optimizes the utilization of existing energy sources.

Constitutional and Political Development
Development of consensus on the form and style of future government and division of the N.W.T. that will ensure the establishment and protection of aboriginal rights and the increased political autonomy of people and their government of the N.W.T.

Improved Government Performance and Public Accountability
Continued development and refinement of Government practices and information systems in keeping with the development of the N.W.T. towards responsible government and the need to account to the public and to the Assembly on the activities of the Government.

The Keewatin Annual Report

The Department of Economic Development and Tourism in the Keewatin region facilitated several community based tourism initiatives. These included implementation of an historic sites study for the community of Baker Lake; development of a comprehensive tourism guide training program for delivery in 1984; provision of developmental assistance to several communities for hotel/accommodation facilities and tourist information centres; and preparatory work for an integrated tourism development plan.

The department negotiated a socio-economic agreement between Cullaton Lake Gold Mines and the Government of the Northwest Territories in the spring of 1983. The mine agreed to continue its efforts to hire local residents and award contracts to northern businesses.

The recommendations of the Special Committee on Education were well received in the Keewatin by the local education authorities.

The Keewatin Regional Education Authority has established itself as an effective and responsible body through setting broad priorities and programs for education in the region. It established a centralized orientation program for new teachers, worked closely with the Minister of Education in matters of policy, especially with regard to high school education for Keewatin students. With assistance from the Departments of Personnel and Education, it developed a training program and hired a trainee for the position of local education authority development officer.

In response to the need for consolidation and extension of the Inuktitut language and culture component of school programs in the region — a need expressed by the Keewatin Regional Education authority — the Department of Education established an Inuktitut program co-ordinator. Development of learning and teaching materials in Inuktitut for use in all Keewatin schools was extended and enhanced through an Indigenous Language Development project undertaken by the education society.

The Keewatin Regional Education Authority called for a well balanced school program with an emphasis on high academic achievement. Its efforts in the communities contributed to a marked increase in pupil attendance during the year as well as a higher rate of success at high school by Keewatin students in residences.

ᖃᓄᐃᑦ ᓄᓇᕗᑦᑎᓐᓄᑦ ᑕᒪᐃᓐ ᐊᒃᓱᐃᓐ ᐊᐃᑦ ᐅᒪᓗ ᑭᓇᐅᔭᓕᕆᓂᖅ ᓂᑎᕐᔪᐃᓐ ᓴᓇᔨᓕᕆᓂᖅ ᓄᓇᕗᑦᑎᓐᓄᑦ ᐱᒋᔭᐅᓂᖅ ᓄᓇᕗᑦᑎᓐᓄᑦ ᐅᒪᓗ ᑕᒪᐃᓐ ᓄᓇ ᐊᑦᑎᑎᕈᑎᑐᖅᑐᑦ ᐃᓕᓴᐃᑎᕐᓯᕈᓐᓇ ᓗ ᓴᓐᓄ ᔭᕈᓐᓇᖅ ᓇᕆᔨᐊᓂ ᓄᑎ ᓗ ᓯᓚᖅᑐᓂ ᓴᖅᑭᑐᐃᓐᓇᖅᑐᑦ ᓇᓗᓇᐃᖅᑐᑦ .

Application of northern purchasing policy by the Department of Government Services resulted in northern vendors receiving 50% of the purchases made by the Regional Government Office.

The Department of Information continued to implement the training program designed by the language bureau to professionally develop the skills of interpreter/communicators with the Government of the Northwest Territories. During the course of the year, emphasis was placed on improving the skills of regional information staff and interested freelance interpreter translators.

Residents of the Keewatin were provided with a communications service through audio tapes distributed to local radio stations throughout the region. These tapes varied from regional government reports to public affairs announcements. Transcriptions were prepared by regional information staff.

The Department of Justice and Public Services held a Justice of the Peace seminar in the Keewatin region in the fall of 1983.

One of the main thrusts of the Department of Local Government in the region was the construction program. The Baker Lake hamlet office was completed and planning work progressed on hamlet offices/multi-purpose halls for the communities of Repulse Bay and Chesterfield Inlet. The community of Eskimo Point constructed an indoor hockey and curling rink, completely financed by the hamlet.

The Keewatin Regional Council was officially recognized with the passing of the Regional and Tribal Councils Ordinance at the last sitting of the Legislative Assembly.

The regional Personnel Department, in conjunction with the regional management team, identified 12 additional in-service-training positions at the regional senior officer levels. As vacancies occur and in the event that long term Northerners cannot be identified to fill these positions, term trainers will be recruited.

ᐃᓕᓴᕐᓂᐊᕐᓂᖅ ᓄᑖᒪᓐᓇᖅᑐᑦᑎᐊᓕᖅ ᐊᑐᓕᖅᑐᒃᓴᓪᓗᒍ ᑭᓇᐅᔭᖅ ᓄᓇᕗᑦ ᐃᓕᓴᕐᓂᐊᕐᓂᖅ ᓄᑖᒪᓐᓇᖅᑐᑦᑎᐊᓕᖅ- ᖁᓕᓂᖅ.

ᑭᓇᐅᔭᖅ ᐃᓕᓴᕐᓂᐊᕐᓂᖅ ᓄᑖᒪᓐᓇᖅᑐᑦ ᓴᓇᖏᑦ ᐊᕐᑭᖅ ᓯᒪᓕᑦ ᒪᑐ ᐃᓚᖓᑦ ᓯᓚᑐᓂᖓᓂᖅ ᐊᕐᑭᖅᑕᒪᓐᓇᖅᑐᑦ ᒪᑐ ᐱᖁᑎᓂᖅᑐᑦ ᓄᓇᕗᑦ ᐃᓕᓴᕐᓂᐊᕐᓂᖅ ᐊᑐᖅᑐᒥᐅᑎᒃᓴᓂᖅ ᐃᓕᓴᕐᓂᐊᕐᓂᖅ

The Department of Public Works completed an extensive program throughout the Keewatin. Major renovations were carried out to the schools at Whale Cove and Baker Lake. A number of roofs were replaced at Repulse Bay and Baker Lake and insulated siding was installed on houses in Chesterfield Inlet, Rankin Inlet and Eskimo Point.

New buildings included panellized classrooms at Baker Lake, Chesterfield Inlet and Eskimo Point. A DPW tradeshop warehouse was constructed at Chesterfield Inlet, while Rankin Inlet received seven 3-bedroom houses converted from seven portable classrooms. The famous Keewatin landmark, Turquetil Hall, at Chesterfield Inlet was demolished.

Native participation in game management increased and every effort was made to involve hunters' and trappers' associations in all aspects of Department of Renewable Resources activities. Emphasis was on Conservation Education.

Sports hunting of polar bear and caribou in the Repulse Bay area was reasonably successful and other hunters and trappers associations looked at the possibility of sports hunting. The Keewatin Wildlife Federation held several meetings and their resolutions were responded to by the Superintendent of renewable resources and his staff.

Hunters and Trappers Associations were involved in outpost camps, caribou surveys and polar bear harvest, as well as sports fishing lodges and tourism.

The Department of Social Services continued to encourage residents to participate in local social assistance appeal committees. Training for members was offered at the community level.

The Hamlet Budgeting System

In all operations except community airports, hamlet budgets consist of two main parts: the G.N.W.T. contributions from the Department of Local Government and local revenue.

In preparing their budgets most hamlets estimate their total expected expenditures for the year, then deduct the G.N.W.T. contributions which leaves the local revenue portion of their budgets. For a budget to be balanced (that is, without surplus or projected deficit) the expected local revenue plus the G.N.W.T. contribution must equal the hamlets' total anticipated expenditures. The total of the local revenue portion will determine how much the Council will have to charge for water delivery, sewage and garbage disposal, equipment rental, etc. If the projected local revenue total is too high (that is, beyond what the Council feels it can reasonably charge) then the projected expenditures must be cut back in order to balance the budget.

The amount of the G.N.W.T.'s contribution is determined through negotiations with the Federal Government from whom about 80% of all our funding comes. Funding is determined by a standard formula for all hamlets in the N.W.T. Any increases in funding are based on volume increases (that is, increases in the volume of services, roads, population and number of buildings in a community, etc.,) as well as price increases in the cost of fuel and utilities. All funding is approved by the Legislative Assembly of the G.N.W.T..

Hamlet operating-contributions are divided into two parts, conditional and unconditional funding. Conditional funding is intended to be spent on specific activities such as municipal services, roads, fire protection, etc. Unconditional funding may be used for any activity or expenditure approved by a hamlet council.

Contributions for community airports are 100% conditional; that is, they cannot be used for any other purpose. Hamlets receive the actual amount it costs to operate the airports within their jurisdiction in a safe and reliable manner.

The same is true for federal contributions to offset the cost of heating fuel and electricity for hamlet buildings.

In hamlets where there are no private contractors, another source of hamlet revenue is from contracts between the Hamlet and the G.N.W.T. or other agencies. In the case of contracts with the G.N.W.T., the amounts allocated to these have been approved by the Legislative Assembly.

ᐃᓄᒋᐊᖅᓯᓂᑦ: 999

Profile: Baker Lake is the N.W.T.'s only inland Inuit community. Most of the communities' residents are the descendants of the Thule Inuit who migrated to the Keewatin 1000 years ago. Because they rely primarily on the caribou and fish of the interior, they have evolved a lifestyle that is distinct from Inuit who inhabit the coastal regions.

ᑕᐃᒪᐃᓕᖅ: ᖃᓘᓐᑐᐊᖅ ᓄᓇᕗᒻᒥ ᓄᓇᒃᓚᑎᒃᒥ ᐃᓄᒃ ᓄᑦ ᓄᓇᕗᑦᓯᐅᑦᓯᒪᓂᖅ. ᒪᑦᓂᓕᒫᓂ ᐃᓄᓐᖅ ᒪᓕᕐᓂᑦᓂ ᐱᓕᕆᔨᒃ ᑕᒪᒃ ᑯᐊᓗ ᓄᓇᕗᑦ ᐊᑐᖅᑕᐅᓂᒃ 1000-ᓂᒃ ᐅᑦ ᖃᐅᔨᓂᒃ. ᐱᓕᕆᔨᒃᑕᐅᓂᒃ ᐃᓄᖅ ᑯᓘᓐᓃᐊᖅᑐᑦ ᓄᓇᕗᑦ ᐃᓄᐃᑦ ᐊᑐᖅᑕᐅᓂᒃ

Baker Lake is most recently known for the work of its artists, who have established a worldwide reputation for the fine quality of their carvings, prints, and wall hangings. Many people who visit the community rave about the beauty of the surrounding tundra and the dexterity of the residents who inhabit this Inuit community of 999 people.

Chesterfield Inlet

ᐃᓚᓕᓴᐃᒃ

Location: 63 21'N, 90 2'W. Elevation 11m at the airstrip, 101 air km NE of Rankin Inlet, 1,147 air km E of Yellowknife, in the Keewatin Region. On a small bay on the south shore of Chesterfield Inlet, on the west side of Hudson Bay. Chesterfield Inlet lies on a low, narrow coastal strip, consisting of sandy and gravelly land surrounded by low granite outcrops, and inland lakes.

Date of Incorporation: April 1, 1980

Hamlet Council Members: (as of April 1, 1984)

Mayor: Simeoni Sammurtok

Councillors: Louis Autut
Mark Papak
Titi Kadluk
Bernard Krako
Tommy Samok
Angeline Simik
Brian Zawadski

Secretary Manager: Johnny Ipkarnerk
Assistant: Paul Sammurtok

Postal Code: X0C 0B0
Telephone: 898-9926
Population: 270 residents

Profile: Chesterfield Inlet was known among Inuit for many generations as a good location for the hunting of seals and whales. The first contact with the outside world began as early as 1612, when explorers first traveled to this area.

While there was much exploration activity in the early 1600-1700's, trading posts were not established until much later. Whaling was the basis for the first trade with Inuit. Some Inuit owned sloops or schooners. Trading and hunting were the common occupations in the late 1800's.

In the early 1900's the first attempts were made to establish Canadian sovereignty and law in the Arctic. An R.C.M.P. post was established in Chesterfield Inlet in 1914.

In 1912 Father (later Bishop) Turquetil established a Roman Catholic Mission. During the same year the Hudson's Bay company established a post to trade in white fox furs. Around this time there was a migration of Netsilingmiut from the Foxe Basin to join the Karnilmiut who had traditionally lived there.

Eventually Chesterfield Inlet became the site of a hospital, a convent for the Order of the Grey Nuns, and a home for senior citizens. A full-time school was established in 1951, and from 1954-1969 the Mission ran a large hostel for Catholic children from throughout the Arctic.

Profile: Southampton Island was the original home of the Sallirmiut Inuit. Unlike many other Inuit, they built homes of stone, turf and whalebone; wore bear-skin clothing and used flint-headed weapons.

Sir Thomas Button visited Southampton Island in 1612, but it was only in 1824 that the Sallirmiut met their first qallunat, Captain Lyon. In 1860 extensive whaling started in the northern part of Hudson Bay and Southampton Island continued as a base for whalers until 1920.

All but five of the Sallirmiut perished of disease brought by the whalers in 1899. The group is now extinct. Aivilingmiut from the Wager-Repulse area arrived in Southampton Island at the beginning of the 20th century as a result of the whaling station. A station was established in South Bay by Captain Munn from 1916-1918.

The community of Coral Harbour began in 1924 when the Hudson's Bay Company transferred its post from Coates Island. Okomiut from Baffin Island and others from Northern Quebec were taken to Coral Harbour also. Luke Kidlapik began the Anglican Mission and by 1927 the Roman Catholic Mission was established.

The RCAF and USAF opened an airfield during World War II, which was taken over by MOT in 1948. A school was built in 1950; the Federal administrator arrived in 1959 and the nursing station opened in 1963. While the Inuit of Coral Harbour still depend on the sea mammal and polar bear resources of the island, many are also employed in skilled jobs or are in private enterprise.

Eskimo Point

ᐊᖏᐃᐊᑦ

Location: 61 07'N, 94 04'W. Elevation 9.75 km at the airstrip. 241 air km SW of Rankin Inlet, 1,086 air km E of Yellowknife, in the Keewatin Region. On the west coast of Hudson Bay, about 18 km south of the Maguse River. Eskimo Point lies on a narrow, sandy peninsular beach ridge, with muskeg-covered marshes to the south and characteristic tundra vegetation.

Date of Incorporation: December 1, 1977

Hamlet Council Members: (as of April 1, 1984)

Mayor: Mark Kalluak

Councillors: Jimmy Muckpah
Patsy Owlijoot
John Arnalukjuak
Mary Kuksuk
Peter Alareak
John Owlijoot

Secretary Manager: Ralph King
Assistant: Simona Baker

Postal Code: X0C 0E0

Telephone: 857-2841

Population: 1068 residents

Profile: Eskimo Point served mainly as a summer camp for the inland Pallirmiut Inuit of south Keewatin until the 1900's. This group, a branch of the Caribou Eskimos, came to the coast to hunt seal in spring and summer and were contacted by traders out of Churchill, Manitoba relatively early.

In 1774, the trader Graham trained young Inuit in the use of guns. The Edthen Eldeli Chipewyan tribe shared the Pallirmiut territory and were their ancestral enemies. The members of this tribe were almost wiped out by smallpox in 1780. The two groups made peace with each other in 1790. By the 1860's the Pallirmiut had become well established middlemen trading the furs and ivory of Inuit further north for profit at the Hudson's Bay Company's barges anchored at Eskimo Point.

The settlement of Eskimo Point became more permanent when the Hudson's Bay Company post opened in 1921. In 1924 the Roman Catholic Mission was built. In 1926 the Anglican Mission was constructed with the help of Joseph Varley. The RCMP post was established in 1937. Inuit from inland and coastal villages came to the settlement for trade goods, religion, food and medical aid. With the decline of the inland caribou herds and the instability of fur prices, periods of famine were experienced in the Keewatin in the 20's.

Starvation and disease again struck the inland Inuit in the 1940's with epidemics of diphtheria and tuberculosis at Eskimo Point. With army-tracked vehicle exercises in the area, and later, signal stations, the plight of the Inuit began to receive more attention. Eventually most of the Pallirmiut were relocated to Eskimo Point. Since the establishment of a school in 1959, the community now has a fairly stable population of 1068. The hamlet is growing, very prosperously.

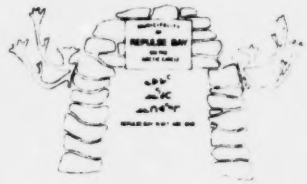
Repulse Bay



ᓇᐅᔨᓪᓗ

Location: 66 32'N, 86 15'W. Elevation 15m approximately, at the airstrip. 443 air km SE of Spence Bay 1,424 air km NE of Yellowknife, in the Keewatin Region. On the south side of Rae Isthmus between the Gulf of Boothia and Southampton Island at the northern shore of Repulse Bay. Repulse Bay lies on a steeply cliffed coastline with hills and valleys carved from bedrock. Scant soil is silty, sandy and gravelly. Extensive breakage of bedrock-fluting makes for many marshy depressions. The surroundings have tundra vegetation.

The present permanent settlement began in the early 1960's. Government personnel and a large construction program followed in 1968. The first community organization, the Co-op, was incorporated in 1968, as was the Housing Association. The Community Council was set up in 1969. Besides being known as a sealing, fishing and hunting community, Repulse Bay has recently become renowned for its carvings and other crafts.

Rankin Inlet

ᑲᖏᓕᓂᖅ

Location: 62 49'N, 92 05'W. Elevation 32m at the airstrip. 475 air km N of Churchill, 1,150 air km E of Yellowknife, in the Keewatin Region. On the west coast of Hudson Bay between Whale Cove and Chesterfield Inlet. Rankin Inlet is a low rolling hill country, on rocky terrain with sand and gravel ridges and sparse tundra vegetation.

Date of Incorporation: April 19, 1975

Hamlet Council Members: (as of April 1, 1984)

Mayor: Peter Tatty

Councillors: Yvo Airut
Dawson Milley
Peter Kusugak
Henry Kablalik
Robert Tatty
Mike Illnik
Caroline Anawak

Secretary Manager: Shag Shaughnessy
Assistant: Lavinia Brown

Postal Code: X0C 0G0

Telephone: 645-2895

Population: 1177 residents

Profile: Until the early 1950's very few Inuit lived in what is presently the hamlet of Rankin Inlet. The area became significant with the discovery of nickel in 1929. Rankin Inlet was established as a mining centre in 1955 by the North Rankin Nickel Mines.

From 1954 to 1960, the Hudson Bay Company Store, a hospital, homes for government employees, three churches, a school and a number of residences were added to the settlement. Inuit people from many areas moved to Rankin to work in the mines until 1962. When the mine closed, the settlement had a wage economy. It is significant to note that Rankin Inlet was one of the first northern communities to have a wage labor economy as its basis.

In 1958 "Itivia" was established within ½ mile of Rankin when the Department of Northern Affairs became alarmed at the deterioration of living conditions for the inland people. This community was subsequently abandoned. With the closing of the mine, there were many efforts on the part of the G.N.W.T. to develop rehabilitation programs for community residents, among them the introduction of an arts and crafts industry which has since become an important activity for the residents of the hamlet.

While recovery from the closing of the nickel mine was slow, Rankin has begun to make progress in establishing a viable economy. Several businesses are now in successful operation, including a fish plant, craft shop, garage, snowmobile dealership, hotel, etc. Rankin now serves as the regional centre for the G.N.W.T. in the Keewatin as well as the key transportation and communications centre for the Keewatin Region.

With the completion of the new school, Rankin is slowly showing signs of recuperation. The Maani Ulujuk School in Rankin was completed in May of 1982 and presently has an enrollment of 391, from grades K to 9.

Whale Cove

ᐅᑭᓪᓗᐊᖅ

Location: 62 10'N, 92 36'W. Elevation 20m at the airstrip. 80 air km S of Rankin Inlet, 1,139 air km E of Yellowknife, in the Keewatin Region. On a peninsula at the head of Whale Cove on the west coast of Hudson Bay. Whale Cove is a south facing sheltered cove on a large sandy-gravelly area with rocky outcrops and tundra vegetation among low hills and rocky coast.

Executive

Regional Administration

The primary responsibility of the Executive is to provide direction for the delivery of all government programs and services in the Keewatin Region. It provides administrative support to programs and services delivered in the field through government liaison officers, employed in each community in the region.

The Executive promotes good public relations between government and residents of the communities.

Another priority of the Executive is to advise and make recommendations to the Commissioner and members of the Executive Council on policies of the Government of the N.W.T. affecting the Keewatin Region. The Executive also provides support services when the Commissioner or members of the Territorial Executive travel through the Region.

In his capacity as administration coordinator for the Region, the Regional Director encourages an effective working and planning relationship with the communities in the Region, the Territorial and Federal Goverments, resource development companies, and other agencies in the Region.

Economic Development and Tourism

The Department of Economic Development and Tourism has a broad range of responsibilities for monitoring, maintaining, and stimulating activity in all sectors of the Northwest Territories' economy. The scope of Departmental activity includes: financial services to businesses, such as loans, loan guarantees, and contributions; business management and development services, including specialized technical advice in renewable, tourism and other sectors; economic planning to chart the direction of economic growth in the Northwest Territories' economy; funding and operation of Government Commercial Enterprises; development and operation of Territorial parks and campgrounds; administration of joint Federal-Territorial programs such as Special ARDA, ELF, and the Economic Development Agreement (EDA); and monitor activities in the non-renewable resource sector.

Departmental Objectives

Plan, support and encourage the development of a healthy, expanding and diversified economy in the Northwest Territories in a manner compatible with northern lifestyles and aspirations, ensuring that maximum benefits to Northwest Territories are realized from training, employment and entreprenerial opportunities afforded by economic development activity.

- Maximize viable business opportunities in all areas of the northern economy consistent with community and regional aspirations.
- Support and encourage traditional skills in the Northwest Territories economy.
- Develop Territorial parks to assist in meeting outdoor recreational needs, while assisting local residents in realizing park-related training, employment and business opportunities.
- Ensure that maximum economic benefits accrue to Northwest Territories residents from renewable and non-renewable resource development activities.
- Facilitate the development of community-based tourism facilities and services, to assist communities and Northwest Territories' residents in realizing training, employment and business opportunities related to travel and tourism.
- Promote pleasure and business travel to and within the Northwest Territories.

Education

The administration of the Department of Education coordinates all educational programs and services within the Keewatin. They are also responsible for the upgrading of professional staff as well as monitoring and providing direction to educational services.

The following are the main program areas and the objectives of those programs.

School Programs
To provide schooling for pupils from Kindergarten to Grade Nine including special training for the handicapped.

To aid in development of indigenous cultural programs.

Advanced Education and Manpower Programs
To deliver the Apprentice and Tradesman programs.

To deliver the In-Service Trainee program.

To deliver the Staff Development program.

To deliver Employment Development programs.

To deliver Adult Education Programs and train bilingual Adult Educators.

Local Education Authority Development
To support the development of Local Education Authorities in their endeavours to maintain and/or improve the standards of education in the Keewatin Region.

Finance

The Department of Finance provides direction in financial management in support of Government operations.

The Administration Division is responsible for the overall direction and coordination of the Regional Finance Department. This division provides advice and guidance to all Regional Departments on financial matters.

The Treasury Division is responsible for the collection, management, control and reporting of all revenues in the Keewatin Region. Through the use of a computer, revenues are recorded into Government accounts as soon as received and receivables are kept to low levels.

The Comptrollership Division is responsible for the preparation of financial management information through the use of a computerized Financial Information System. The system allows them to develop, coordinate, and implement financial policies and procedures.

Local Government

Administration
The Department of Local Government has been in operation since 1967, when the Territorial Government was established in Yellowknife. Since its formation it has been charged with the general task of developing local governments throughout the Northwest Territories. The Department of Local Government has the largest capital budget in the N.W.T. — 24,000,000 or 28% of all capital funding in the 1984-1985 Main Estimates. The Department in the Keewatin Region, through the Executive offices is responsible for providing direction and support in the implementation of the activities of the department in communities throughout the region and to administer the financial and physical operations of the Regional office. The following are components of the Department of Local Government's regional operations. The Administration is responsible for coordinating all of these operational areas.

Municipal Affairs
Provide professional support to Hamlet Councils and staff in the areas of political and administrative development.

Implement a program of municipal guidance and inspection services to Hamlets.

Provide technical assistance to Hamlets in the areas of equipment and building specifications and management, specialized repair problems and the planning and scheduling of construction work.

Provide each Hamlet in the Keewatin with adequate funds to carry out municipal services within their boundaries.

Provide an annual operation contribution to the newly formed Keewatin Regional Council.

Community Airports
Provide functional support and guidance to Hamlet Councils in the operation of Arctic "B" and "C" airports with M.O.T. standards.

Administer the G.N.W.T. airports program in the Region.

Provide sufficient operating funds to each hamlet with an Arctic Community Airport.

Community Planning and Lands
Assist hamlet councils in formulating development goals and incorporating these into general development plans.

Coordinate legal surveys funded by the Territorial Government in hamlets in the Region.

Carry out the Land Disposal and Management Program of the Department of Local Government in the Region.

Coordinate the Department's Regional Site Development and Road Construction Program.

Recreation

Assist community councils and recreation committees in leadership and program development, administrative procedures and financial management.

Provide consultative and financial assistance to community councils for the construction and operation of community recreation facilities.

Encourage and assist communities in the Keewatin to participate in organized and culture-based sports activities.

Specifically, in the Keewatin Region our goals and objectives include the continued promotion anu assistance to the K.R.C. in its endeavours; the promotion of ensuring proper budget management and to provide accessibility for community councils and their staff to government programs and services. We also ensure community councils and their staffs are given ample opportunity to participate in the development of legislation affecting their communities, specifically the draft Local Government Ordinance; and to encourage councils to look at other forms of local government.

Position	**Accountabilities**
Regional Superintendent	Responsible for coordination and management of all departmental functions. Supervises staff and evaluates work of staff. Prepares Departmental budgets (capital plan) and forecasts. Assist in the development of Departmental policies and provides advice to the Regional Director and Deputy Minister with respect to Local Government issues.
Assistant Regional Superintendent	Assists the Regional Superintendent in the performance of his duties by supervising and directing the delivery of appointed Local Government programs and services. Supervises staff assigned to him, offers advice to the Superintendent in areas designated as his responsibility.
Regional Municipal Affairs Officer	Ensures that all of the regulations of the Municipal Ordinance are carried out and provides training programs for councils and municipal staff.
Municipal Affairs Officer	Assists the Regional Municipal Affairs Officer, responsible for Recreation and training.
Airports Officer	Oversees Airport Operations, procedures and standards in communities not covered by the Ministry of Transport.

Personnel

The Department of Personnel has as one of its primary responsibilities the provision of personnel recruitment services to the Keewatin Region Departments to meet their human resource needs and provides guidance and advice to Hamlet Councils and other organizations.

In addition they also provide for staff development and training as well as personnel advisory services.

Personnel also administers pay and benefits packages for employees including the allocation of housing and the movement of personnel and their belongings from location to location.

The Department also provides advice and guidance in the area of Personnel Management to other individuals or groups upon request.

Position	**Accountabilities**
Regional Manager	Provides a complete and effective delivery of personnel programs and services to all Government employees within the Keewatin Region.
Personnel Officer	Assumes direct responsibility for counselling, employee relations and staffing.
Benefits Clerk	Responsible for providing technical and administrative support work in the areas of pay and benefits, financial and budget preparation. Also carries out administrative duties for documentation, pay and benefits action for employees.
Personnel Assistant	Provides administrative support in recruitment activity such as Classroom Assistants, Clerk-Typists and Apprentices; administers the hiring of casual employees in the region. Participates in the administration of the Strategy of Native Employment Program in the Keewatin Region to ensure that the Inuit people of the region are made aware of the employment opportunities with Government of the Northwest Territories.

Public Works

The Department of Public Works provides the direction, planning, administration and support services for the operation and maintenance of Government of the N.W.T. buildings, works and equipment in the Keewatin Region.

Provides technical support and supervision connected with projects for the construction and maintenance of buildings in the Keewatin Region.

The following are some of the other responsibilities of the Department of Public Works.

Equipment
- maintenance of all equipment owned or operated by the G.N.W.T. in the Keewatin Region.

Utilities
- to purchase and or provide power, heat, water, sewage and garbage services to G.N.W.T. facilities in the Keewatin Region.

Accommodation Services
- to administer leases and provide furniture for all staff housing owned or operated by the Government of the N.W.T. in the Keewatin Region.

Renewable Resources

The Department of Renewable Resources is responsible to manage and monitor the use of renewable resources in the Keewatin Region, for the benefit of Territorial residents, and to increase the involvement of native residents in planning and renewable resource management.

The Department also monitors and surveys wildlife species within the Region and determines what the allowable harvests will be without depleting the resource. They enforce the Wildlife Ordinance with efforts of ensuring an equal distribution without abuse as well as promoting conservation education and appreciation. In all Departmental activities an attempt is made to involve the local people and seek their advice and assistance to achieve a harmonious attitude in wildlife management.

As part of fulfilling its responsibilities, the Department is involved with Hunters and Trappers Associations, Trappers Assistance programs, Outpost Camp establishments, Hunter training and Gun Safety, and the distribution of fur incentive grants.

Social Services

The Department of Social Services has as its mandate the coordination of all social service programming in the communities and provides the regional staff with direction and support, including monitoring the resources necessary to provide these services.

These services also include the supervision and maintenance of the Iglualuk Transient Center in Churchill as well as certain support services for the Penner Home in Winnipeg, Manitoba.

Among the Department of Social Services primary areas of responsibility are the following:

Family and Children Services
Provide family based services for the care of children in the home.

Provide substitute care for children committed to the care of the Superintendent by courts or by parental agreement.

Financial Assistance
To identify, develop and deliver financial assistance and related counselling services.

Services to the Aged and Handicapped
Provides services to meet the needs of aged and handicapped persons in the Keewatin Region

Correctional Services
The Department administers probation and community corrections services. Also the Department works closely with the courts to provide information and services as they are requested.
